# AI powered Mobile App Testing Platform

Accelerate testing and save time with intelligent tools

**Get Started**

1. Record ——— **2. Run** ——— 3. Analyze

## Script-less Testing Experience

Simply demonstrate user-flows to build adaptive tests. No coding required.

## Testing on Real Devices

Run regression tests across real devices and discover device specific compatibility issues.

## Visual Test Reports

Review and share actionable insights from test logs, screenshots and performance metrics.

## Platforms

## Integrations

## Trusted By

Joy - Wedding App, A startup adopted AI testing and eliminated the need for writing test scripts
